DomusVi has taken a further step in its expansion in Latin America, opening a new senior home in Colombia, in the city of Medellín. The new nursing home is joining the Acalis network, a DomusVi's brand on the LATAM continent.

The new senior nursing home - Acalis Superior - offers a luxury, secure and integrated infrastructure with common areas such as a dining room, living room **and 122 quality rooms in three sizes**, depending on the service required and the resident's dependency. The home relies **on a multi-disciplinary team** (medical and nursing staff, occupational therapists, nutritionists and physiotherapists) which will evaluate the specific needs of each person to provide the most suitable services and therapies for their physical and emotional well-being.

DomusVi continues to expand in Latin America

Acalis was established in Chile nine years ago, **providing accommodation and services to independent and dependent senior** thanks to 500 professionals. Currently, Acalis operates 8 homes in **Chile** offering 961 places and another senior home in **Uruguay**, with 48 places and now 122 places in **Colombia**.

Through Acalis, DomusVi continues to expand its high-quality health and social care services to some countries in Latin America, and it has set a target of over 2,000 places for 2021.
